Art Unit: 2834

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are vague and indefinite. In the last two lines of claims I and II it is unclear whether or not the "metallized electrode" is in fact connected to the "grounding electrode". "Arranged to be conductive to ..." is vague and indefinite and thus one cannot determine the metes and bounds of these claims.

Claims 1-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Further cited of interest are Wakamori, Takado and Hori.
